EMPLOYMENT

- 2008 - Pres Staff Technologist Kaiser Permanente
- 2005-2007 Staff technologist, Lutheran General Hospital, Weekends and
fill in while in full time school for BFA.
- 2003 – 2005 Staff technologist, Northwestern Memorial Hospital, Chicago
Perform all types of exams. Charge patients, computer
scheduling and data input.
- 2001-2003 Coordinator, Lutheran General Hospital, Park Ridge, IL
Responsibility for the department's budget, scheduling,
interviewing and hiring, as well as employee performance
reviews. Providing educational programs for the

technologists as well as CME's. Completing all aspects of the accreditation process. Initiating a stringent, well documented quality assurance program, department website and newsletter.

2000-2001 Lead Technologist/Staff Technologist, Lutheran General Hospital, Park Ridge IL
I began at Lutheran General Hospital as a staff technologist in 2000, however I was given the position of Lead Technologist within 6 months. I performed a wide range of vascular exams

1992-2000 Sole Vascular Technologist, St. Joseph Hospital, Elgin, IL
I learned Vascular Ultrasound from Ken Schaeffer in 1991. Upon my completion of training, I became the sole technologist. Over the next 8 years I initiated a thorough quality assurance program and created protocols for new exams. I spent one year learning general ultrasound.
