

## **Artist Statement**

**Joani Share**  
**Tracks**

Tracks was created during an era when the sense of normalcy does not exist, and life, as we know it, is being lived in a very different way. I see the world at a crossroads and my way of interpreting this time period is through my art. Tracks is a fabric collage, made by using my sewing machine to create imagery that crisscrosses and overlaps to form a contemporary, almost three-dimensional, composition where the imagery defines the shape.
