

Title: Claire

Artist Name: Natalia Boltukhova

Artist's Statement

Within and without share the same address. Interconnectedness between everything - human-made and "natural", outer space and inner world, repeated patterns in nature and in human behavior, the list goes on - is both complex and blindingly simple. The drawings, making use of "negative" space, bigger things made out of comprehensible smaller things, and world-old metaphors, are a hope to express that.

Artist's Bio

Natalia is a Massachusetts-based traveler, working in a variety of media: photography, drawing, mixed media, experimental art, poetry. Layers of meanings, perspectives, and interconnectedness is a constant theme in her art.
