

Jane Yuen Corich

Artist Statement

Jane has been painting since 1985. She uses personal photos and found images as jumping off points for many of her paintings. Since 2010 she has been joyfully entrenched in the world of acrylic mixed media in conjunction with pastels, pencils, ink, and cut paper. She presents to the viewer a world of interesting textures and vibrant colors. Inspired by changes the works go as they evolve through the interaction of visual cues. She loves bringing together all the nuances each of the different elements to create a complete visual world on the surface. No detail is too small and no idea too big. Her approach to keeping her work fresh is to continually experiment. Each painting has had a new problem to solve and visual story to tell. Enjoy the work.

Jane exhibits her works locally, national and internationally in juried exhibits.
